1. INTRODUCTION

- SMVEC- School of Physiotherapy, Sri Manakula Vinayagar Engineering College (SMVEC) envisions to foster knowledge, skills, attitude and values of the aspiring youth to enable them to become global citizens. To achieve this process, the institution has evolved a flexible integrated academic curriculum designed in accordance with the Outcome Based Education (OBE) integrated with CBE which is acquired by the learners of a programme under 'Learner Centric' Model.
- The provisions made in this document shall govern the policies, procedures, curriculum, conduct of the examinations and evaluation systems.
- The semester system shall be adopted for academic activities in the college. Normally, odd semester starts in second week of June and even semester starts in second week of December.
- The rules and regulations shall be subjected to amendment made by the Academic Council (AC) from time to time based on the recommendations of the Board of Studies (BoS).

2. PRELIMINARY DEFINITIONS AND NOMENCLATURE

Institute	:	SMVEC- School of Physiotherapy, Sri Manakula Vinayagar Engineering College
University	:	Pondicherry University
Programme	:	Bachelor of Physiotherapy (B.P.T)
Core Course	:	Theory / Practical subject that is normally studied in the academic year. Eg: Anatomy, Soft tissue Manipulation, etc.,
Auxiliary Course	:	Additional courses within the curriculum, for which the Internal Examination will be conducted by the department
Head of the Institution	:	The Director cum Principal
Controller of Examinations (CoE)	:	The authority who is responsible for all Examination related activities of the institution
Curriculum	:	The various components / courses studied in each programme that provides an appropriate outcome in the chosen branch of study.
Period	:	50 minutes duration of a theory / practical class
Day	:	8 periods in a calendar day
Enrolment	:	Enlistment of a student on roll in an academic year
Arrear	:	A course in which a student has not fulfilled the examination criteria in the end year examination.
IA	:	Internal Assessment
EYE	:	End Year Examination
EYM	:	End Year Examination Marks
End Year Examination	:	End Year examination conducted for the courses prescribed in the curriculum of that academic year.
Supplementary Examination	:	Examination conducted for the students who have not fulfilled the End Year Examination passing criteria in the previous attempt (s) with a maximum of two arrears.

Academic Council (AC)	:	An Apex academic body having the power to scrutinize and approve the proposals with or without modification of the Board of Studies with regard to courses of study, academic regulations, curricula, syllabi and modifications there of, instructional and evaluation arrangements, methods, procedures relevant thereto, etc.
Board of Studies (BoS)	:	An Apex academic body having the power to approve the various courses; suggest teaching methodologies, coordinate research and other academic activities keeping in view the objectives of the college.
Academic Standing Committee (ASC)	:	ASC shall perform the functions under emergent situations which are subject to ratification by the Academic Council (AC).
Department Consultative Committee (DCC)	:	Reviews, revises and prepares curriculum structure based on the institutional policy and suggests improvements in syllabus of a course(s) prepared by course teacher (s) and forwards the curriculum to BoS for further recommendations. It monitors the academic progress and conduct of classes throughout the semester and takes appropriate corrective measures to improve the quality of curriculum delivery.
Programme Academic Coordinator (PAC)	:	Coordinates all the academic activities of the department viz. Curriculum revision, framing of syllabus, time table, re-registration of course(s), display and submission of attendance status and BoS meeting as a member secretary.
MHFW	:	Ministry of Health and Family Welfare
UGC	:	University Grants Commission

3. About The Programme

The Bachelor of Physiotherapy (B.P.T) is an undergraduate academic programme in the medical science field of physiotherapy. The duration of the B.P.T course is 5 years, including a 1-year internship. Physical Therapy Programs such as physiotherapy provide core skills like manual therapy, therapeutic exercise and the application of electrophysical modalities to prospective students. The course focuses on the use of physical movements and exercise to improve and cure injuries, deformities and diseases. Physiotherapy does not rely extensively on the use of drugs and medicine. Instead, it relies on the use of physical treatment to restore, maintain and maximize overall well-being.

3.1 Objectives

- To impart an in-depth knowledge and skills required to become competent in various techniques and attitudes required for independent practice of Physiotherapy Profession.
- To produce the graduates with excellent communication skills who are to function as independent clinicians and as fully interactive members of the multi-disciplinary health care team.

3.1 Salient Features

- To train students to work as independent physiotherapists or in conjunction with a multidisciplinary team to diagnose and treat movement disorders.
- Skills in the graduate's physical/ functional diagnosis, treatment planning, management, administration of physiotherapy treatment, and patient support.
- Graduates can find employment opportunities in hospitals, nursing homes, sports teams, fitness centers, community rehabilitation, planning boards, and health promotion services in both the private and public sectors, as well as in independent physiotherapy clinics.
- Graduates will function as active members of professional and community organizations.
- The graduate will be a service-oriented advocate dedicated to the promotion and improvement of community health.
- The graduate will demonstrate lifelong commitment to learning and professional development.

4. Eligibility For Admission

Admission to the Bachelor of Physiotherapy (BPT) program shall be made strictly in accordance with NCAHP guidelines. A candidate must have passed the Higher Secondary (10+2) or equivalent examination recognized by any Indian board, duly constituted Board, or National Open School, with a minimum of 50% aggregate marks in Physics, Chemistry, and Biology (Botany & Zoology). No candidate shall be admitted unless he/she has appeared in the NEET examination. Admission shall be based on eligibility criteria (minimum 50% in Physics, Chemistry, and Biology) and the merit list prepared from 10+2 passing marks. Candidates who have studied abroad must have passed an equivalent qualification as determined by the Association of Indian Universities and the Equivalence Committee of the NCAHP, and must fulfill the above criteria. Candidates must furnish a certificate of physical fitness from an Authorized Medical Attendant confirming no physical disability that would bar admission, as per the guidelines of the NCAHP Curriculum (Rights of Persons with Disabilities Act, 2016). Reservation for persons with specified disabilities (benchmark disability of 40% or more) shall follow State Government norms, with the certificate issued in accordance with the Rights of Persons with Disabilities Rules, 2017, and related guidelines notified by the Ministry of Social Justice and Empowerment.

Age Limit

A candidate must have attained the age of 17 years as on the date of admission (or as on the current academic year, whichever is applicable as per NCAHP norms).

5. Duration of the Programme

The BPT program follows an annual pattern and shall be of 5 years' duration, comprising 4 years (38 weeks per year $\times$ 6 days per week $\times$ 7 hours per day minimum) of academic training, excluding internal and University examinations, extracurricular activities, public holidays, and vacations, followed by a compulsory 1-year full-time rotatory internship programme.

6. Medium of Instruction

English shall be the medium of instruction for all subjects of study and for all examinations of the course.

7. Educational Methodology

The teaching/learning methods shall adopt a competency-based learning approach. In addition to classroom teaching (contact hours), self-learning shall be facilitated to develop graduates as lifelong learners. Technology-enabled, hybrid, or virtual learning, along with advanced tools such as mannequins, simulators, and videos, shall be utilized to enhance the learning experience. Teaching methods include lectures, tutorials, demonstrations, case studies, field visits, role plays, debates, panel discussions, DOAP (Demonstrate-Observe-Assist-Perform) model, clinical postings, bedside demonstrations, and simulation-based training.

8. Academic Calendar

The course shall commence not later than 1st September of the academic year. University examinations shall be conducted at the end of each academic year, with a minimum of two examinations (Annual and Supplementary) per academic year. The Head of the Institution/University may declare a maximum of 30 days of vacation (summer/winter) in an academic year. The period of vacation shall be decided by the Head of the Institution.

9. Curriculum Structure

The curriculum is competency-based and designed as per NCAHP guidelines for a 5-year BPT program (4 years academic + 1 year internship). It includes a detailed scheme of study with minimum hours for theory, practical/skills training, and clinical postings across all years. The structure incorporates formative (Continuous Internal Assessment) and summative assessments, with credit-based evaluation where applicable. The complete scheme of study, subject-wise distribution, and minimum hours are prescribed in the NCAHP Competency-Based Curriculum. Promotion to the next year is permitted only if the candidate has failed in two or fewer subjects; all subjects must be cleared before appearing for the final-year examination and proceeding to internship. The curriculum emphasizes clinical competence, professionalism, ethics, communication, public health, and lifelong learning.

10. Program outcomes

As an independent practitioner, entry level Physiotherapy graduate will be able to

- i. Demonstrate competencies to provide quality care to the individuals and populations to optimize their movement, function, and quality of life.
- ii. Demonstrate competency to examine, assess, evaluate, treat and prescribe physiotherapeutic management of various disease, disorders and trauma conditions.
- iii. Promote health and implement strategies informed by best available research evidence to prevent and minimize impairments, activity limitations and participation restrictions caused due to various disorders.
- iv. Demonstrate the commitment to provide ethical care through high standards of professional practice.
- v. Demonstrate abilities to communicate effectively to augment therapeutic and professional relationships.
- vi. Demonstrate competency to prescribe and comprehend various diagnostic imaging, electrophysiological, hematological and bio- chemistry investigations for proper diagnosis, treatment or referral to other healthcare professionals

- vii. Demonstrate competencies to integrate best available research evidence in to clinical decision making and practice
- viii. Exhibits commitment towards continuous learning and scholarly activities.
- ix. Demonstrate abilities to work effectively with healthcare team in providing patient centered care.
- x. Demonstrate abilities to manage self, time, resources and priorities to ensure safe, effective, and sustainable services.
- xi. Demonstrate competencies in quality assurance relevant to Physiotherapy practice.

11. Internal Assessment (Theory)

Each paper shall carry 20% weightage for Continuous Internal Assessment (CIA/Formative Assessment) and 80% for University/External Examination. The internal assessment shall be based on: (i) Written assignments/project work, attendance, etc. (40% of internal marks); (ii) Two mid-term tests (best of two) (60% of internal marks). Assessments shall be compiled from the student's theoretical and clinical performance throughout the training. The passing minimum for internal assessment (as part of the overall 50% requirement) shall be met separately in theory and practical components.

Internal Assessment (Theory)- Calculation Formula

Each paper carries 20% weightage for Continuous Internal Assessment (CIA).

The IA is calculated as follows:

1. Components:

- 1. - Assignments + Attendance = 40% (8 marks)
- 2. - Mid-Term Tests (Best of Two) = 60% (12 marks)

2. Assignment and Attendance:

- Assignment (Max = 10 marks)
- Attendance (Max = 5 marks)
- Total = 15 marks

Formula: CIA Component = (Assignment + Attendance) / 15 × 8.

3. Mid-Term Tests:

- Select the best of two tests (each out of 100)

Formula: Midterm Component = Best Test Score / 100 × 12

4. Final Internal Assessment:

IA (out of 20) = [(Assignment + Attendance) / 15 × 8] + [Best Test Score / 100 × 12]

5. Attendance Mark Distribution:

- 100% attendance = 5 marks
- 95–99% = 4 marks
- 90–94% = 3 marks
- 85–89% = 2 marks
- 80–84% = 1 mark

Note: Minimum passing requirement should be met separately for theory and practical.

12. Break Of Study from the Programme Re-admission after Break of Study

Candidates having a break of study of five years or more from the date of first admission, or more than two spells of break, shall not be considered for readmission. The five-year period shall be

calculated from the date of first admission. Candidates shall be eligible for readmission only if they are not subjected to any disciplinary action and no charges are pending or contemplated against them. All readmissions are subject to approval by a duly empowered committee of the University constituted by the Vice-Chancellor. Candidates with a break of study up to five years shall apply for readmission to the appropriate University authority and shall be granted exemption in the subjects already passed. The maximum duration to complete the BPT degree is 10 years from the date of joining; failure to do so results in discharge from the program. Cases involving internship completion beyond prescribed timelines shall be placed before a committee constituted by the State Council on a case-to-case basis.

Requirements For Examinations and Attendance

A candidate must secure a minimum of 75% attendance in theory subjects and 85% attendance in skills training/practical for eligibility to appear in the final/University examination. No relaxation shall be granted on any ground, including medical indisposition. Attendance is compulsory and forms part of the internal assessment criteria.

Only candidates who meet the attendance requirement and have passed all prior subjects (subject to promotion criteria) shall be permitted to appear for end-of-year examinations.

13. Examinations Attendance Required to Appear End Year Examinations

As detailed above: minimum 75% in theory and 85% in practical/skills training, with no relaxation permitted.

Promotion Criteria

The candidate must pass both theory and practical components independently; failure in either requires reappearance in both. Overall promotion criteria require passing with the stipulated marks, and all subjects of previous years must be cleared before proceeding to the final year and internship.

Passing Criteria

A candidate shall be permitted to appear for the University/Final Examination only if he/she has fulfilled the prescribed minimum attendance requirements as per the applicable academic regulations. A candidate shall be declared to have passed the examination if he/she secures **not less than 50% marks in Theory and 50% marks in Practical examinations separately.**

Supplementary Examinations

University examinations shall include Annual (EYE) and Supplementary examinations, with a minimum of two examinations conducted per academic year. Failed candidates may appear for supplementary examinations as per university regulations. Review of answer papers for failed candidates shall be as prescribed by the University/Commission.

14. Auxiliary Courses

The Auxiliary courses are provided to enhance the knowledge and skill set of the students. The Auxiliary Courses included in the curriculum are Functional English (FE), Evaluation Measurement and Outcome Measures, Principles of Management, Health Promotion and Fitness, Information Technology, Education Technology, Project Work Orientation (PWO). The End Year Examination will be conducted at the Department level and the Marks will be submitted to the Controller of Examination

a. In case of Failure

The candidate must re-register for the course in the following academic year. He/She is required to appear for both Internal Evaluative Examination I & II. The marks obtained in these exams will be averaged, and to pass, the student must secure 50% or above. The final marks will be evaluated by the internal examiner with consent of the Dean of the SMVEC - School of physiotherapy. After approval from the Dean of Academics, and the Director. The marks will be submitted to the Controller of Examinations (COE).

15. Internship

All students must undergo a compulsory 1-year full-time rotatory internship approved by the college after successfully passing all examinations in all subjects. The teaching institute is responsible for arranging internship in its own hospital or affiliated/approved hospitals. A stipend shall be paid as prescribed by the State Council. Up to 4 months may be completed as externship in an approved institute. Completion of Basic Life Support (BLS) training is mandatory. Two months of rural posting (preferably in government settings such as CHC/PHC/Rural Rehabilitation Centers) shall be coordinated by the State Council. Students must maintain a log book (as prescribed in the curriculum), duly signed by the principal, which shall be preserved by the institute. Only on successful completion of the internship shall the candidate be eligible for the award of the degree.

a. Total Duration

Total duration- One year or twelve months; Seven hours a day for six days a week amounting to min 2016 hours. 12 months = 1 year = 2016 hours [Minimum Hours] (7X6X48).

b. Internship Guidelines

The internship should be completed within one year from the date of commencement of internship, and however should be started within one year of after passing the final examination. No candidate shall be eligible for the award of the degree without successfully completing the one year of internship.

c. General Conduct and Professionalism

- i. Adhere to punctuality, dress code, and patient confidentiality.
- ii. Follow all the hospital policies

d. Attendance

- i. Duration of CRI is 1 year
- ii. 100% attendance is mandatory, except for pre-approved leaves
- iii. Leaves should not exceed two days per month
- iv. Compulsory minimum one year duration of the Internship has to be carried out in SMVMCH

e. Academic Requirements

- i. Detailed logbook to be maintained and submitted every week
- ii. Regular feedback from postings area in charge to be collected and submitted to CRI coordinator
- iii. The students need to maintain the log note for entire CRI period, co-signature by clinical in charge & CRI coordinator
- iv. Fix number of case has to be documented in log book in each posting.

f. Disciplinary Action

- i. Misconduct will result in disciplinary action, may be up to termination.

g. Leave Policy

- i. One day of leave per month is allowed other than Sundays
- ii. Maximum of 2 days combined leaves are permitted
- iii. Missed days must be compensated within the same posting
- iv. In case of maternity leave the whole leave is consider as extension

h. Internship Commencement and Orientation

- i. Internship commencement 15 days after 8th semester results
- ii. All interns must attend orientation before starting
- iii. Grading, attendance sheets, and log book will be provided on orientation

i. Duration of Department wise Rotatory posting during B.P.T. Internship

Sl. No.	Departments / areas	Duration
1	Musculoskeletal / Orthopedic Physiotherapy	45 days
2	Neurological Physiotherapy	45 days
3	Community Physiotherapy/ Rural posting	2 months
4	Cardiology ICU/NICU	1 Month
5	Pulmonology/TB Hospital/ Medicine	1 Month
6	Sports Physiotherapy	1 month
7	Obstetrics and gynecological Physiotherapy	1 month
8	Pediatric	1 month
9	Surgery/ Oncology	1 month
10	Burns and Plastic Surgery	1 month

j. Project work/ Case Presentations: Course objective:

- a) The candidate shall submit a project under the supervision of a Physiotherapy faculty during internship. The project may be a case study or recent technique or literature reviews and etc. To make the student to have research mind and to facilitate for higher studies.
- b) Twelve case presentation is mandatory during the one-year internship. The student will be doing specific case studies allotted by their teacher/guide. Subject is for Case Presentations and evaluations. Minimum 5- 10 cases are to be documented for discussion.

k. Criteria of Evaluation of Students during B.P.T. Internship

Sl. No.	Description	Satisfactory/ Unsatisfactory
1	Attendance	
2	Discipline and general behavior in the Department	
3	Approach to patients	
4	Inquisitiveness regarding the subject	
5	Knowledge about evaluation of conditions	
6	Knowledge about various therapeutic modalities	
7	Knowledge about actual application of therapeutic skills	

l. Domain Criteria and Weightage for Evaluation of Students during B.P.T. Internship

Domains	% of total marks of the internal assessment
Attendance	10%
Log book	30%
Project	60%

16. ELIGIBILITY FOR AWARD OF THE DEGREE

A candidate shall be eligible for the award of the Bachelor of Physiotherapy degree only after successful completion of all four academic years (passing all subjects) and the compulsory 1-year rotatory internship, within the maximum stipulated duration of 10 years from the date of admission. The candidate must fulfill all attendance, examination, and assessment requirements as per NCAHP guidelines.

17. DECLARATION OF CLASS

Classification of successful candidates shall be as follows:

- **First Class with Distinction:** Secures 75% and above in aggregate marks, provided the candidate passes the whole examination in the first attempt.
- **First Class:** Secures above 60% and below 75% in aggregate marks and completes the course within the stipulated period, provided the candidate passes the whole examination in the first attempt.
- **Second Class:** Secures above 50% and below 60% in aggregate marks and completes the course within the stipulated period.
- All other successful candidates shall be declared as “Passed”.

These regulations are derived exclusively from the NCAHP Competency-Based Curriculum for

Physiotherapy (as per the NCAHP Act, 2021) and associated guidelines. Institutions must implement them uniformly for standardization of BPT education. For the complete scheme of study, detailed subject-wise curriculum, and any updates, refer directly to the official NCAHP document.

18. SCHEME OF EXAMINATION

Regular periodic examinations shall be conducted throughout the course. There shall be no less than two internal assessment examinations, their weightage is as shown in below table.

a. Weightage of the Internal and External Exams

Year	Internal exam 20% weightage	Final 80 % weightage
1st year	Internal 1	University exam 1
	Internal 2	
2nd year	Internal 1	University exam 2
	Internal 2	
3rd year	Internal 1	University exam 3
	Internal 2	
4 th year	Internal 1	University exam 4
	Internal 2	

b. Designing of question paper

The question paper covers all levels of learning based on Bloom's Taxonomy. Use suitable action verbs to test understanding and higher-level thinking. Include different types of questions like LAQ, SAQ, and MCQ. Clearly mention marks for each section. MCQs should be limited to 20% of the total marks. Ensure questions are evenly distributed to cover all competencies.

c. Weightage of Levels of Taxonomy for effective learning experience of B.P.T. Graduates.

Level	Total
Knowledge	05%
Comprehension	15%
Application	30%
Analysis	25%
Evaluation	15%
Create	10%

d. Practical/Clinical Examination

a) Include assessment in psychomotor and effective domain. Assessment of clinical and procedural skills should be based on direct observations by the examiners.

b) Assessment tools like case presentations, Objective Structured Clinical Examination (OSCE) and/or Objective Structured Practical Examination (OSPE) and Directly Observed Procedural Skills (DOPS) should be employed, where applicable.

c) Practical/clinical examinations will be conducted in the laboratories and /or hospital wards/ OPD. Viva/oral examination should assess approach to patient management, emergencies, attitudinal, ethical

and professional values.

d) Practical examination should be conducted by pair of examiners (one internal from same university and one external from another university) only and not by single examiner / examiners of same university.

e. Proposed question paper style

Theory paper

- i. Duration: 3 Hours
- ii. Total Marks: 80
- iii. Format:

Maximum Marks 80

Long Essays

QUESTION NUMBER 1

QUESTION NUMBER 2

Short Essays (3out of 4)

QUESTION 3

QUESTION 4

QUESTION 5

QUESTION 6

Short answers
